## EGF Serum with Peptides

A deluxe serum formulated to be a restoring collagen powerhouse. Packed with DermaPeptide and Epidermal Growth Factor, it can improve the appearance of the skin by creating more elastic, plump, and youthful skin. Ceramides are added to restore moisture to the skin and protect it from the elements. The benefit of enhanced collagen production is that the skin is able to repair wounds more easily. Sea Silt Fermented Extract will prime your skin with plentiful nutrients isolated from sea water and will increase aquaporin expression. Aquaporins are the channel proteins that form pores in the membrane of cells, facilitating water transport to areas where it is needed most, optimizing hydration. Combined with the healing power of Vitamin K, this serum is sure to leave you with restored and firm skin.

*Liposomes*

*Stem Cells*

*Peptides*

*Hydration*

*Moisturizing*

*Anti Oxidants*

*Bio-Fermentation*

*Collagen and Elasticity*

The central bottle label reads: **CELLAGENIX**  
 EGF Serum with Peptides  
 • Ceramides  
 • Vitamin K & C  
 • Plant Stem Cells  
 1 oz  
 Made in the USA  
 Iniziala Skin Care, LLC • Buffalo, NY

### Ingredients:

Aqua (water), Lactobacillus/ Nereocystis Leutkneana Ferment Filtrate, (Phospholipids & Phytonadione & Ascorbyl Palmitate & Linoleic Acid & Tocopheryl Acetate) Hyaluronic Acid, Cucurbita Pepo (Pumpkin) Seed Extract & Cell Culture Extract, Lactobacillus/ Nereocystis Leutkneana Ferment Filtrate, Ceramide NP; Ceramide AP; Ceramide EOP; Phytosphingosine; Cholesterol; Sodium Lauroyl Lactylate; Carbomer; Xanthan Gum, Glycerin & Vigna Aconitifolia Seed Extract & Sodium Citrate, Yeast Extract, Hexapeptide-11, Lactobacillus Ferment, Lactobacillus & Cocos Nucifera (Coconut) Fruit Extract, Phospholipids & rh-Oligopeptide-1

PH: 5.0

- 

  - Sea Kelp BioFerment - Oil free moisturizer full of vitamins and minerals with anti inflammatory properties.
- 

  - Vitamin K Liposome - Vitamin K1 aka phytomenadione , is made by plants and it performs the classic functions of Vitamin K, including its activity in the production of blood clotting proteins. While increasing capillary strength, it diminishes the appearance of dark circles under the eyes, redness from rosacea, and broken capillaries.
- 

  - Vitamin C Liposome - Promotes anti-aging and anti-oxidant properties. It is required for collagen production and involved in the regeneration and maintenance of many tissues.
- 

  - EFA Liposome - Liposome containing essential fatty acids: linoleic acid and tocopherol which the body cannot synthesize. They supplement the epidermal lipids, increase moisture and participate in normal oxidative reactions.
- 
  - HYA Solution – Binds moisture, boosting moisture and plumping the surrounding tissues. It is one of the chief components of extracellular matrix contributing significantly to cell proliferation & migration.
- 

  - Phyto-Biotics Pumpkin Seed – utilizes current stem cell technologies focusing on the specific activity of the phenolic compound provided by Ferulic acid imparting anti-aging, antioxidant, anti-wrinkle, and protective benefits, while enhancing ATP synthesis and cellular metabolism.
- Ceramide Complex - Mix of ceramides , cholesterol , and free fatty acids. It provides unique restoring capabilities and enhanced moisture.
- 
  - Vigna Aconitifolia Ext - A natural, botanical alternative to Retinol with potent antioxidants properties. It provides protection from free radical damage.
- 

  - DermaPeptide Toning - Isolated peptide sequence from yeast to increase production of collagen and improve concentration of various glycoproteins.
- 

  - HexaPeptide 11 - Used for a variety of anti-aging benefits such as increasing skin tone and elasticity, improving stratum corneum hydration and cellular renewal.
- 

  - EGF Liposome - Epidermal Growth Factor, or EGF, is a strong promoter of epithelial and fibroblast proliferation. It is able to enhance wound repair by promoting collagen production. Upon injury, EGF is released in the skin and activates EGFR (epidermal growth factor receptor).
